## INVENTORY

It is in your interest to make sure that your effects are insured for their full replacement value in the country of destination. If you underinsure your goods "average" will be applied – this means that you will only recover the percentage of your loss which the insured value bears to the actual value.		Example: Items value £1,500 but insured for £1,000. Damage of £900 sustained  The company will pay $\frac{£1,000}{£1,500} \times 900 = £600$ less the excess (see below)
